

Guide to “static cytology” submissions:

Digital images of stained cytology specimens can be emailed to AskVetPath, and we will generate a final JPC report for inclusion in the patient’s medical record. This will facilitate rapid turnaround times that will benefit rush cases, learning opportunities, and remote locations!

Submission Instructions:

1. Take multiple images of the stained cytology slide(s) at low and high magnification
 - a. This can be done using a phone or by screen grabs if the scope is connected to a monitor
2. Take an image of the gross lesion, if possible
3. Fill out a JPC submission form
 - a. Indicate “static cytology submission”
4. Email the submission form and images to AskVetPath: dha.ncr.Joint-Path-Center.mbx.askvetpath@health.mil
5. Within 2 business days, a final JPIMS report will be emailed to you
6. You may also submit the glass slide(s) for a full cytologic evaluation after the static cytology submission (a JPC form with an accession number will be sent to you for inclusion with the glass slide submission)
